

BORDER COUNTRY

Quite the "Must Have" of today's furnishing styles, border carpets allow you to create a truly unique interior design scheme. Most borders are axminster construction with a woolrich pile and pre-matched for colour with the main body of the carpet. There is no doubt that a border will add individual style to any room, but, a word of caution: measuring, and fitting borders especially, should be undertaken by a professional carpet layer.

If in doubt, ensure that your fitter is a qualified member of the National Institute of Carpet and Floorlayers.
